DOUBLE CAB

Big, strong and stylish, the Hilux sets the standards and leads the way for a new generation of versatile utility vehicles. The latest advanced capabilities and features give you the backing to confidently achieve your goals.

The high-rigidity frame structure provides a strong Performance Use of CAE (Computer Aided Engineering) to optimize the body structure helped to reduce noise and vibration and contributes to excellent stability and control.

The rear suspension is a rigid axle type. The leaf springs and damping force of the shock absorbers are optimally tuned to provide excellent stability, control and flat ride comfort.

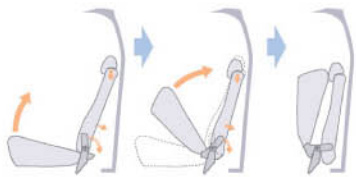

The double wishbone front suspension features coil springs which provide good wheel stroke. It is a significant contributor to the outstanding ride comfort and handling.
